

At Thermal Supply, We're Here and Ready to Serve You

Our doors are open and we're here to help because we know you have important work to do. We will continue to serve you until further notice.

As mandated by Governor Brown's Executive Order 20-12, Thermal Supply Inc. will implement and enforce social distancing policies consistent with guidance from the Oregon Health Authority.

Health and Safety is Our Priority

The health and safety of our customers and our co-workers is our top priority as we monitor this situation that we're all facing. Our co-workers are hard-at-work to ensure our stores are open and ready to serve you. With this in mind, we have stepped up the sanitation and cleaning of our stores as part of our commitment to providing a healthy work environment. We're also providing our co-workers with information on how to stay healthy and direction to stay home if they aren't feeling well.

Through the guidance we've received from various health and government agencies, along with our preparations, we have confidence that our stores will continue to be safe and will remain open to take care of our valued customers.

We have always appreciated the opportunity to serve our customers throughout the Northwest. We will continue to do so during this unprecedented situation, and we believe the more we share and fight this together, the better it will be for everyone.

Thank you,
Thermal Supply, Inc.

A Northwest Company, Owned and Operated by Northwest People.
